RE: New England Testing Company License No.28-30618-01

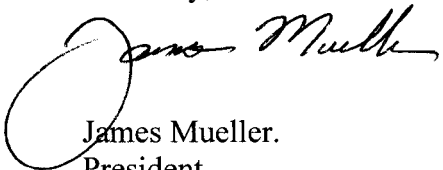

To whom it may concern,

Advance Testing Company, of Campbell Hall, NY, has acquired New England Testing Company. This transaction included the transfer of six Humboldt density gauges, formerly owned by New England Testing Company. ATC will continue to maintain the State of New Hampshire Radioactive Materials License No. 429R under the new ownership. No other changes will be made in the storage, operational procedures or management of our current program. Since Advance Testing Company already maintains an NRC license (No. 31-31284-01); we are requesting that New England Testing's NRC License No. 28-30618-01 be terminated.

I am the former President and owner of New England Testing and will remain with Advance Testing Company. Alan Brown, former RSO/Vice president of New England Testing Company, will also remain and continues to serve as RSO/Vice President of the New England branch office.

If you have any questions or require additional information, please do not hesitate to contact me or Mr. Brown at (603) 448-7300 or Advance Testing Company's RSO, Mark Clark, at (845)-496-1600 ext. 207.

Sincerely,

James Mueller.

RE: Advance Testing Company License No. 31-31284-01 and New England Testing Company License No. 28-30618-01

To whom it may concern,

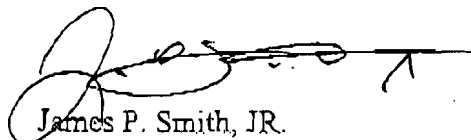

This letter is being written to address the following three (3) items:

1. Advance Testing Company has purchased New England Testing.
2. New England Testing's NRC License No. 28-30618-01 has expired and we would like to have it terminated.
3. We are requesting an amendment to our WRC license No. 31,31284-01 to include the gauges that are currently stored in the New England Office under our New Hampshire Radioactive Materials License No. 429R.

We will continue to maintain our State of New Hampshire license but on occasion have the need to perform testing on temporary job sites in Vermont. This is the reason for the request for inclusion of the NH gauges on our NRC license. No other changes would be made in our operational procedures or management of our current program.

If you have any questions or require additional information, please do not hesitate to contact our RSO, Mark Clark, at (845)-496-1600 ext. 207 or myself at extension. 208

Sincerely,

James P. Smith, JR.
President
Advance Testing Company, Inc.
