Rachel,

This is the request to reduce our HDR Ir-192 source from 39 Ci total to 21.6 Ci total as stated in our license (50-17838-01) 6. F Iridium-192.

Besides the above we also have three issues for you to review:

1. NARM source exemption, as re-attached at the bottom of this email.
2. License Amendment: remove DU & Room 6/100 decommissioning: the ticket (Mail Control # 472137) we received is for this?
3. Notification: Shepherd Cs137 source (100 mCi) exchange: the ticket (Mail Control # 472137) we received is for this?

Thank you.
