RE: Request of Termination of License # 47-25499-01 (Docket No. 030-35277)

To Whom it May Concern:

We are writing to request termination of our US NRC Materials License number 47-25499-01 (Docket number 030-35277). We will provide the US NRC with the following three items:

1. Evidence (Leak Test Data) that none of our sealed sources have leaked.
2. Evidence that our Analytical Samples (Wipe Test results) have tested negative for radioactive material.
3. Evidence that we have transferred our sealed sources to authorized users and letters from said users stating that they have received the sources.

We are currently in the process of transferring our sources to authorized users and will provide this data as it becomes available and will provide this to the US NRC License Assistance Team no later than May 15th, 2009.

Please feel free to contact us with any questions and/or clarifications.

Sincerely,

Allan Seaman
Radiation Safety Officer
