

April 6, 2009

Mr. Eugene S. Grecheck
Vice President - Nuclear Development
Dominion
Innsbrook Technical Center
5000 Dominion Boulevard
Glen Allen, VA 23060-6711

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION LETTER NO. 035
(SRP SECTION 08.02) RELATED TO THE NORTH ANNA UNIT 3 COMBINED
LICENSE APPLICATION

Dear Mr. Grecheck:

By letter dated November 26, 2007, Dominion Virginia Power (Dominion) submitted a combined license application for North Anna Unit 3 pursuant to 10 CFR Part 52. The U.S. Nuclear Regulatory Commission (NRC) staff is performing a detailed review of this application.

In letters dated October 16, 2008, and February 18 and March 9, 2009, the staff identified that additional information was needed to continue the review and enclosed specific requests for additional information (RAIs) to include RAIs related to SRP Section 08.02 - Offsite Power System. The staff subsequently determined that responses to the following RAIs are not necessary for the staff's review regarding the Offsite Power System for North Anna Unit 3:

- RAI 08.02-33 (GDC 5)
- RAI 08.02-39 (Testing of underground cables)
- RAI 08.02-40 (Submergence of low voltage power cables)

The staff considers these RAIs to be closed. Dominion is requested to submit no response for these RAIs or, if responses have previously been submitted, to take no further action.

Should you have questions, please contact me at (301) 415-0224 or Thomas.Kevern@nrc.gov.

Sincerely,

/RA/

Thomas A. Kevern, Senior Project Manager
ESBWR/ABWR Projects Branch 1
Division of New Reactor Licensing
Office of New Reactors
