NUCLEAR REGULATORY COMMISSION

BEFORE THE COMMISSION

DECLARATION OF CHARLIE TOBEN IN SUPPORT OF THE MISSOURI
COALITION FOR THE ENVIRONMENT'S MOTION TO HOLD DOCKETING
OF CALLAWAY COLA IN ABEYANCE

Under penalty of perjury, I, CHARLIE TOBEN, declare as follows:

1. I am a member in good standing of the Missouri Coalition for the Environment ("MCE").
2. I reside at 4851 N. 4 Mile Rd. in Washington, Missouri. My residence lies within 43.12 miles of the proposed site of a new nuclear plant, for which AmerenUE Corporation ("Ameren") has submitted a combined construction permit and operating license application ("COLA") to the U.S. Nuclear Regulatory Commission ("NRC" or "Commission").
3. I am concerned that if the NRC grants Ameren's COLA, the construction and operation of the proposed nuclear power plant could adversely affect my health and safety and the integrity of the environment where I live. I am particularly concerned about the risk of accidental releases of radioactive material to the environment, and the potential harm to groundwater supplies and local surface waters.
4. In order to ensure that the licensing decision for the proposed Callaway II nuclear power plant protects my interests in a safe and healthful environment, I have authorized MCE to represent me in any licensing proceeding and/or related rulemaking proceeding that concerns the safety and environmental impacts of the proposed nuclear power plant in Callaway County, Missouri. I have also authorized MCE to take any legal actions that are necessary to ensure that the licensing proceeding and the rulemaking proceeding are conducted fairly, efficiently, and in a manner that provides for the full consideration of all licensing issues that could affect my safety and the health of my environment.

I declare under penalty of perjury that the foregoing facts are true and correct and that any expressions of opinion are based on my best judgment.
