Before the Secretary

In the Matter of
COMANCHE PEAK NUCLEAR POWER PLANT, UNITS 3 AND 4
Combined Construction and Operating License

DOCKET NUMBERS 52-034 AND 52-035

Declaration of J. Nile Fischer

Under penalty of perjury, I, J. Nile Fischer, declare as follows:

1. My name is J. Nile Fischer. I am a member of True Cost of Nukes.
2. I live at 2837 Townsend Dr., Ft. Worth Texas, 76110. My home lies within 40 miles of the Comanche Peak site in Somervell and Hood Counties, for which Luminant Generation Company LLC seeks a combined construction and operating license (CL) for units 3 and 4 of the Comanche Peak Nuclear Power Plant.
3. Based on the history of nuclear reactors to date, I believe that nuclear reactors are inherently dangerous. Thus, the construction of one or more new nuclear reactors close to my home could pose a grave risk to my health and safety. I am concerned about the risk of accidental releases of radioactive material and the potential harm to groundwater and surface waters. I am concerned that if an accident involving atmospheric release of radiological material were to occur, I could be killed or become very ill.
4. I believe that the Comanche Peak COL application is inadequate as written and that my interests will not be adequately represented in this action without the opportunity of Petitioner to intervene as a party in the proceeding on my behalf.
5. In order to ensure that the licensing decision for the proposed Comanche Peak nuclear reactors protects my interest in a safe and healthy environment, I have authorized True Cost of Nukes to represent me in any licensing proceeding an/or related filing or rulemaking proceeding that concerns the safety and environmental impacts of the proposed Comanche Peak nuclear reactors. I have also authorized True Cost of Nukes to take any legal actions that are necessary to ensure that the licensing proceeding and the rulemaking proceeding are conducted fairly, efficiently, and in a manner that provides for the full consideration of all licensing issues that could affect my safety and the health of my environment.
