Gentlemen:

This letter confirms a discussion with your Mr. P. G. Sullivan on August 26, 1957 wherein I asked if the items listed below could be purchased on the subject license:

1. 100 lbs Uranium Metal (normal) reject plates. Thickness between 1/4" and 1/8", width under 3".
2. 20 lbs Biscuit or Derby Uranium - natural
G less than 250 ppm.
O less than 250 ppm.
N less than 250 ppm.

The above items are not available from civilian suppliers and we ask that you approve them, so we can send our order to Mrs. Alice M. Corley at Oak Ridge, Tennessee, as we feel this material is available from Fernald.

We trust the above information will enable you to process our request at an early date.

Very truly yours,

SYLVANIA-CORNING NUCLEAR CORP.
