Allan D. Fraiberg, M.D.
Radiation Safety Officer
Providence Hospital
Department of Nuclear Radiology
16001 West Nine Mile Road
Southfield, MI 48037

APR 08 2009

Dear Dr. Fraiberg:

This refers to your letter dated January 23, 2009, requesting the addition of a second camera room to the Cardiology Suite. We still need the additional information that was requested in our letter dated December 22, 2008 (with enclosed "Request for Additional Information"). Also, the information regarding the facility address submitted in your letter dated January 23, 2009, is confusing and may be in error. We will void your request at this time to allow you time to gather the additional information as described in the second "Request for Additional Information". We will void your request without prejudice to resubmission.

When you resubmit your request please state that the resubmission is additional information to **Voided Control 317896**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

NRC's Regulatory Issue Summary (RIS) 2005 31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed second "Request for Additional Information" is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

William P. Reichhold
