memorandum

Idaho Operations Office

Date: May 22, 2007

Subject: Facility Director Change for the Nuclear Regulatory Commission Regulated Fort St. Vrain (FSV) and Three Mile Island (TMI) Independent Spent Fuel Storage Installations (ISFSIs) (EM-ICP-07-009)

To: Elizabeth D. Sellers, Manager
Idaho Operations Office
1955 Fremont Avenue
Idaho Falls, ID 83415

Dear Ms. Sellers:

As you are aware, Mr. Kenneth Whitham has been selected to replace Brad Davis (acting) as the DOE-ID Facility Director for the subject ISFSIs. As NRC Licensing Manager, I have reviewed Ken's qualifications and find them to fully meet the requirements stipulated in both the TMI and FSV Safety Analysis Reports for this position. Having become familiar with the licensing basis for the subject ISFSIs, Ken is now prepared to fully assume these responsibilities and authorities from Brad Davis.

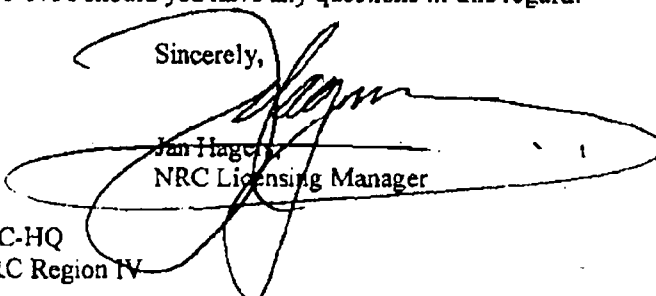

I trust that you will join me in expressing appreciation for the excellent service Brad has provided to DOE-ID during his tenure as acting DOE Facility Director in the interim since the departure of Mark Gardner on November 26, 2006.

Mr. Craig Enos will retain his responsibilities as alternate Facility Director in Ken's absence. I will continue as the NRC Licensing Manager, with Mr. Charles Maggart as my backup.

As you are aware, DOE-ID is considering submitting an application for transfer of NRC Materials License SNM-2512 for the Idaho Spent Fuel ISFSI from Foster Wheeler Environmental Corporation to DOE (operating through DOE-ID). Ken, Craig, Charles, and I will perform the same functions with respect to Materials License SNM-2412, if and when transferred to DOE-ID.

Please contact me at 208-526-0758 should you have any questions in this regard.

Sincerely,

Jan Hager
NRC Licensing Manager
