Mike,

As discussed in my email dated April 3, 2009, we suspended our review of your application for the Antelope and JAB Uranium Project pending replacement of an incorrect version of Appendix A of the Technical Report in ADAMS. The correct version of Appendix A has now been scanned and put into ADAMS. The Technical Report is publicly available (except for Appendix A, which is withheld) in ADAMS in package ML090840127. Please review the Technical Report in ADAMS and confirm that it is the correct version of the Technical Report and is consistent

with the copies sent directly to me. When we receive your confirmation, we will resume our review and notice your application in the Federal Register.

If you have any questions, please contact me.
