Chris,

Yes, nothing in the 22-page pdf I attached to my email is proprietary. The SAR cover has "PROPRIETARY" indicated because the SAR contains portions that are proprietary. 10 CFR 2.390 requires that "The top of the first page of the document and the top of each page containing such information must be marked . . ."

Regards,

Don

Don,

Based on your affidavit, what you have provided electronically is not proprietary and may be placed into ADAMS as publicly available, correct? I ask because the SAR cover in enclosure 5 has "PROPRIETARY" written at the top.

Chris,

Box 1 should have the disks, cover letter copies, etc.

I have attached a pdf which hopefully will help.

Regards,

Don

Don,

I left you a voice mail. I am trying to easily discern which box is different from the other five boxes. You mentioned in a previous email that one box contains the front matter. The boxes are numbered. Do you know which box contains the front matter?

Separately, go ahead and forward what you can electronically. This may simplify entering the application into ADAMS.

Thank you,

Chris Staab
