SUBJECT: NUCLEAR FUEL SERVICES, INC. - ACCEPTANCE OF ANNUAL UPDATE TO
PART II OF SNM-124 FOR CALENDAR YEAR 2008 (TAC L32817)

Dear Ms. Moore:

We have reviewed your letter dated January 27, 2009, transmitting the annual update to Part II of your license. We find the changes to be acceptable. Specifically, we find that Nuclear Fuel Services was authorized to make the changes without prior U.S. Nuclear Regulatory Commission (NRC) approval pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Section 70.72.

We note that Figures 10.2 and 10.13 failed to label the buildings in the Blended Low Enriched Uranium Complex. We suggest that you review the figures in Part II and verify that important features are labeled.

TAC L32817 is considered CLOSED.

If you have any questions concerning this letter contact me at (301) 492-3123, or via email to kevin.ramsey@nrc.gov.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Agencywide Documents Access and Management System (ADAMS).
