**BELL BEND NUCLEAR POWER PLANT
IDENTIFICATION OF ADAMS
ACCESSION NUMBER
BNP-2009-054 Docket No. 52-039**

References: 1) BNP-2009-035, R. R. Sgarro (PPL Bell Bend, LLC) to U.S. Nuclear Regulatory Commission, "Submittal of Bell Bend COLA Revision 1", dated February 27, 2009

PPL Bell Bend, LLC transmitted Revision 1 of the Combined Operating License Application for the Bell Bend Nuclear Power Plant to the Nuclear Regulatory Commission on February 27, 2009 (Reference 1). A public disc and a non-public disc were included as part of the transmittal. Since Part 11M Traffic Impact Study was not revised as part of the submittal, the packing slip was to include a pointer to the appropriate ADAMS accession number. It has come to our attention that the packing slip on the non-public disc omitted this reference. The ADAMS accession number for Part 11M Traffic Impact Study is ML082890771.

If you have any questions, please contact Mr. Rocco R. Sgarro, Manager-Nuclear Regulatory Affairs, at 570-802-8102.

Respectfully,

Terry L. Harpster
