Docket No. 50-94

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

March 30, 1976

RECEIVED

APR 5 1976

Correspondence Dept.

Rockwell International Corporation  
Atomics International Division  
ATTN: Mr. L. W. Wheeler, Director  
Contracts and Administration  
9800 De Soto Avenue  
Canoga Park, California 91304

Gentlemen:

The Commission has requested the Office of the Federal Register to publish the enclosed "Notice of Proposed Issuance of Orders Authorizing Dismantling of Facility, Disposition of Component Parts, and Termination of Facility License" in accordance with your application dated January 28, 1976.

Sincerely,

*Robert W. Reid*

UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NO. 50-94

ROCKWELL INTERNATIONAL CORPORATION

NOTICE OF PROPOSED ISSUANCE OF ORDERS AUTHORIZING  
DISMANTLING OF FACILITY, DISPOSITION OF COMPONENT PARTS, AND  
TERMINATION OF FACILITY LICENSE

The Nuclear Regulatory Commission (the Commission) is considering issuance of orders authorizing Rockwell International Corporation (the licensee), to dismantle the L-77 Reactor, a research reactor located in Canoga Park, California, and to dispose of the component parts in accordance with the plan set out in the licensee's application sworn to January 28, 1976, and to terminate the facility license. The L-77 Reactor is covered by Facility License No. R-40.

Prior to issuance of any orders, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By April 23, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the orders in connection with

the licensee's application. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

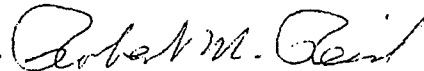

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application sworn to January 28, 1976, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. The Safety Evaluation, when issued, and all orders which may ensue may be inspected at the above location and a copy may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland

this 29th day of March, 1976.

FOR THE NUCLEAR REGULATORY COMMISSION

Robert W. Reid, Chief  
Operating Reactors Branch No. 4  
Division of Operating Reactors
