AUG
M.E. REWILL

Gentlemen:

We have completed our confirmatory radiological survey of the Phase I areas described as Regions IA and IB in your "Radiation Survey for Phase I Release for Unrestricted Use of ESG Headquarters, Building 001" document dated May 6, 1983. We find Regions IA and IB meet our criteria for unrestricted use specified as Condition 22.a. in your SNM-21 license.

It should be noted, however, that Building 001 shall remain as an authorized place of use under your SNM-21 license until the entire building has been released for unrestricted use.

Sincerely,

W. T. Crow, Section Leader
Uranium Process Licensing Section
Uranium Fuel Licensing Branch
Division of Fuel Cycle and
Material Safety, NMSS
