

RESPONSE SHEET

TO: Annette Vietti-Cook, Secretary
FROM: Chairman Klein
SUBJECT: COMSECY-09-0008- PERIODIC UPDATE OF THE
TECHNOLOGICAL DEVELOPMENTS CONCERNING
THE NATIONAL SOURCE TRACKING SYSTEM

Approved X Disapproved _____ Abstain _____

Not Participating _____

COMMENTS: Below X Attached ___ None ___

I approve the staff proposal to discontinue the periodic updates regarding activities related to technological developments and the efforts of other federal agencies involved in tracking radioactive materials.

I recognize that the Nuclear Government Coordinating Committee (NGCC) Radioisotope Sub Council is now responsible for exploring technological enhancements for tracking technologies and has assigned lead responsibility to the U.S. Department of Transportation and the U.S. Department of Homeland Security's Transportation Security Administration.

The staff should remain actively involved in the NGCC Radioisotope Sub Council efforts related to this topic and I encourage the staff to utilize existing formal and informal mechanisms to report new developments in this area to the Commission.

Commissioner Lyons' Comment on COMSECY-09-0008

I approve staff's request to eliminate the periodic reports and to promptly notify the Commission of significant future developments that may occur in the passive and active tracking technologies.

I join Chairman Klein in recognizing that the Nuclear Government Coordinating Committee Radioisotope Sub Council is now responsible for exploring technological enhancements for tracking technologies and has assigned lead responsibility to the U.S. Department of Transportation and the U.S. Department of Homeland Security's Transportation Security Administration. I strongly support staff's active involvement in the Sub Council's efforts.
