Shouldn't we be preparing for your discussion with Dr. Lippoti, as indicated in Donnie Ashley's email, by helping you craft NRC positions on her stated concerns?

1. Strippable coating not effective - 5-7 gpm leak not acceptable
2. Moisture in the sand bed region. should not be there
3. Pin hole present in 2006- not found. Visual Inspection program not effective. Needs better
4. Caulk - loose and wet.
