Rafael, I believe this is the data you asked for regarding the latest editions of the referenced NFPA sections listed in our RAI in force at the time of our license application filing. I want to reiterate that this is data and does not mean we have or are committing to these specific editions nor were the editions that our local municipal jurisdiction would have referenced at that time.

We stand ready to have further discussion on this matter as needed.

NFPA 14---2003
NFPA 15---2001
NFPA 24---2002
