May 29, 2009

LICENSEE: Northern States Power Company, Minnesota

FACILITY: Prairie Island Nuclear Generating Plant, Units 1 and 2

SUBJECT: SUMMARY OF TELEPHONE CONFERENCE CALL HELD ON APRIL 15, 2009, BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION AND NORTHERN STATES POWER COMPANY, MINNESOTA CONCERNING REQUESTS FOR ADDITIONAL INFORMATION PERTAINING TO THE PRAIRIE ISLAND NUCLEAR GENERATING PLANT, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION - SECTION 4.7.5 TURBINE MISSILE ANALYSIS

The U.S. Nuclear Regulatory Commission (NRC) held a telephone conference call on April 15, 2009, with representatives of Northern States Power Company, Minnesota (NSPM) to discuss and clarify the applicant's withdrawal of Section 4.7.5 of the Prairie Island license renewal application (LRA) as provided in a letter dated April 6, 2009,.

In the letter dated April 6, 2009, NSPM provided its conclusion that the analysis of the probability of damage to safeguards equipment from turbine missiles discussed in LRA Section 4.7.5 need not be classified as a Time-Limited Aging Analysis (TLAA), and withdrew that LRA section. In a conference call on April 15, 2009, the NRC requested clarification about how the Current Licensing Basis (CLB) for turbine missiles addresses the turbine rotor inspection interval. NSPM agreed to provide clarifying information to supplement the discussion in the April 6 letter. Enclosure 1 provides a listing of the participants.

The applicant had an opportunity to comment on this summary.
