SUBJECT: MAINE YANKEE INDEPENDENT SPENT FUEL STORAGE INSTALLATION
SECURITY PLAN CHANGES (TAC NO. L24322)

Dear Mr. Connell:

By letter dated February 2, 2009, you submitted a request to the U.S. Nuclear Regulatory Commission (NRC) for a revision to the Maine Yankee Independent Spent Fuel Storage Installation (ISFSI) Physical Security Plan (PSP). The submittal was a complete rewrite of the Maine Yankee ISFSI PSP, and therefore was submitted as Revision 0.

The NRC staff reviewed your proposed revision to the physical security plan, and determined that no physical security changes were made, and therefore the proposed changes would not decrease the effectiveness of the plan. Therefore, the staff has concluded that the proposed changes meet the criteria of 10 CFR 50.54(p)(2), and do not require a license amendment, nor prior NRC review and approval. Please note that 10 CFR 50.54(p)(2) requires the licensee to submit a report of the changes made to the security plan within two months of implementation.

This completes our action under TAC No. L24322. If you have any questions, please contact me at (301) 492-3325.

Sincerely,

/RA/
