Jim,

Please review the attached RAI. If you feel we need a conference call to clarify the requested information, please contact me. If a conference call is not needed (please send an email) I will continue the formal process of issuing the RAI to STPNOC.

This RAI relates to section 4.6.

Thanks
Tekia

Docket No. 52-012 and 52-013
SRP Section: 04.06 - Functional Design of Control Rod Drive System
Application Section: 4.6

QUESTIONS for Reactor System, Nuclear Performance and Code Review (SRSB)

04.06-***

In the introductory statement of STP COL Section 4.6, the applicant states that "The information in this section of the reference ABWR DCD, including all subsections and figures, is incorporated by reference with the following departures and a supplement." However, the applicant only listed the two departures and not the supplement. The staff was unable to identify the supplement and perform a review. Identify the supplement or correct the introductory statement referring to a supplement.
