Dear Mr. Newberry and Mr. Haynes,

The purpose of this email is to acknowledge receipt of your letter dated April 22, 2009, in response to a question posed by the Commission at the April 17 Low-Level Waste (LLW) Commission Brief regarding proper waste attribution. Your letter clarifies the State of South Carolina's policy to require documentation that certifies the identity of the generator of all waste received, as a condition of access to the Barnwell site.

Your letter will be made available to the public through the Agencywide Documents Access & Management System (ADAMS).

We are pleased that you were able to participate in the meeting via webcast on the NRC public website and appreciate your interest in the NRC LLW program.

Best regards,

Patti Swain
