

Void Sheet

TO: License Fee Management Branch
FROM: Region 3
SUBJECT: VOIDED APPLICATION

Control Number: 318054

Applicant: U.S. Steel Corporation - Gary Works

License Number: 13-26104-09

Docket Number: 030-36022

Date Voided: April 28, 2009

Reason for Void: The licensee requested a gauge with a model number that had NOT been approved on the SS&D (sealed source and device) registry. The manufacturer will need to contact the SS&D registry and get the device registered before we can add the gauge to the license. I discussed the above with Alice Erskine (the licensee's representative) and we agreed that since we did not know how long the SS&D registry process would take for the device to be registered, it would be OK to void the licensee's request at this time. The licensee could reapply when the gauge has been approved and registered with the SS&D. Also contacted the RSO on April 28, 2009, and left message with a summary of the above.
