Comm./Group	Last Name	First Name	Office	Committee*/Description
SSIWG	DuBose	Andree	ADM	Personnel Security/Suitability/Background Investigations WG (SSIWG) - Chaired by the Department of Justice, this group has the objective to discuss and resolve common problems about inefficiencies and inconsistencies in the Suitability and Security Investigations process along with impediments to reciprocity. The ultimate purpose of the group is for the greater efficiency and coherence of the U.S. Government's personnel security and suitability programs. The main concerns: 1) Minimal investigative standards for suitability and security investigations; 2) The many different levels of Risk and Sensitivity position designations; 3) The wide variety of investigative products from OPM; and 4) The need for commonality and streamlining of Non-National Security Forms and adjudication.
STP RNCMO	Milligan	Patricia	NSIR	Office of Science and Technology Policy Subcommittee on Radiation and Nuclear Countermeasures (RNCM) WG The objectives of this subcommittee are to facilitate development and stockpiling of radioprotective drugs for the Strategic National Stockpile. MCMA	Drozdz	Andrzej	NRR	MCMA (MELCOR Code Modernization and Assessment) Personnel Security/Suitability/Background Investigations WG (SSIWG) - Chaired by the Department of Justice, this group has the objective to discuss and resolve common problems about inefficiencies and inconsistencies in the Suitability and Security Investigations process along with impediments to reciprocity. The ultimate purpose of the group is for the greater efficiency and coherence of the U.S. Government's personnel security and suitability programs. The main concerns: 1) Minimal investigative standards for suitability and security investigations; 2) The many different levels of Risk and Sensitivity position designations; 3) The wide variety of investigative products from OPM; and 4) The need for commonality and streamlining of Non-National Security Forms and adjudication.

				Interagency Security Committee (Chaired by DHS) - To stay current on proposed, evolving, and new changes in national security policies that impact security in and protection of federal facilities, to include protection of personnel, information, and assets. By Executive Order 12977 of October 18, 1995, the President created the ISC "to enhance the quality and effectiveness of security in and protection of buildings and facilities in the United States occupied by Federal employees for nonmilitary activities, and to provide a permanent body to address continuing government-wide security for Federal facilities."
