Dear Mr. Swafford:

By letter dated April 13, 2009, the U.S. Nuclear Regulatory Commission (NRC) staff issued Amendment No. 323 to Facility Operating License No. DPR-77 and Amendment No. 315 to Facility Operating License No. DPR-79 for the Sequoyah Nuclear Plant, Unit 1 and 2, respectively. These amendments changed the Technical Specifications (TSs) in response to your application dated April 15, 2008, as supplemented December 10, 2008.

Subsequently, your staff notified the NRC of an administrative error on page 2 of Amendment No. 315. The implementation period was not included in the statement regarding when the amendment would become effective. Corrected pages are enclosed for Amendment No. 323 and Amendment No. 315.

The corrections do not change the approval conveyed by the amendments, or the conclusion reached by the associated safety evaluation. We regret any inconvenience this error may have caused you.

Sincerely,
