Washington D.C. 20555-0001

Subject: Response to letter received January 20, 2009 (Dated January 16, 2009) – Request for Additional Information (RAI), License Renewal Amendment Request, Crow Butte Resources, Inc., (CBR) Crawford, Nebraska, Source Materials License SUA-1534 (TAC J00555)

Dear Mr. Burrows:

By letter dated January 16, 2009, the U.S. Nuclear Regulatory Commission (NRC) staff, upon technical review of the License Renewal Application, has requested additional information regarding several sections of the license renewal.

The letter further states that the responses to the RAI's must be submitted within 30 days of receipt of the letter or that a schedule be provided for submitting the responses.

In a letter dated February 13, 2009 CBR indicated that it would submit responses to the item requested by April 10, 2009. Due to the amount of time it is taking to collect additional hydrologic data, CBR will not be able to submit responses to the items requested until May 15, 2009.

If you have any questions, please feel free to contact me at (720) 879-5518 or Larry Teahon at (308) 665-2215 ext 114.

Sincerely,
Crow Butte Resources, Inc.

Steve Collings
