General Comment

Hello:

Due to health and safety concerns, we join the dozens of environmental and safe energy groups that have signed onto the C-10 Research and Education Foundation's Petition (Docket No. PRM-72-6) for Rulemaking calling on the NRC to strengthen quality assurance rules on design and manufacture of dry cask storage for highly radioactive waste and amend the regulations that govern licensing requirements for the independent storage of irradiated nuclear fuel. We are alarmed by serious safety, manufacturing and design concerns, security concerns, and enforcement issues enumerated therein.

Sincerely,

Phoebe Sorgen
