---

Hawaii Cardiology, LLC is an applicant for a license from NRC to operate a nuclear perfusion laboratory. Please find attached a copy of the Pre-Licensing Visit Record executed by me and documenting the pre-licensing inspection of the facility, business and radiation safety operations, and personnel of the applicant by Mr. Jason M. Razo, Materials Inspector on April 20, 2009.

Should you have any questions or need any further information on this matter, please do not hesitate to contact me. In the meantime thank you very much for all of your assistance on this matter.

PRE-LICENSING VISIT RECORD

PAGE 2

NAME OF APPLICANT: Hawaii Cardiology, LLC  
DOCKET NO.: 030-38006

CONTROL NO.: 472167

PRE-LICENSING VISIT SUMMARY:

1. Business Operations  
Three cardiologists are merging operations under the Hawaii Cardiology, LLC name. They intend to centralize their operations and billing practices. Wendell Pang is the owner and oversees the business side of operations. The three physicians will share the authorized medical physicist and nuclear medicine technologists. Reviewed Radiation Facility License granted by State of Hawaii Department of Health. The location and intended use match the request on their NRC license application.
2. Facility  
They are leasing part of the 3rd floor of St Francis hospital. The site matches the drawing in the application. They have a hot lab, camera room, and two treadmill rooms already constructed with equipment in place. Security is adequate at the hot lab keys are controlled by trained personnel.
3. Radiation Safety Operations  
Applicant will only perform heart scans. Pacific Radiopharmacy will provide 4 unit doses/day of Tc-99m as needed. Posting is adequate. Applicant will have a 4  $\mu$ Ci Cs-137 check source for calibration purposes. Ludlum survey instruments are calibrated and available. Applicant will provide dosimetry to radiation workers. Gamma Corp will perform audits. Safety procedures are adequate for scope of operations.
4. Personnel  
The AMP, AU's, and RSO have all been on NRC licenses but the owner was unknown, therefore, the NRC performed a pre-licensing visit. The AMP/AU was familiar with NRC requirements and the RSO was able to assist with any issues.
