SUBJECT: COMANCHE PEAK NUCLEAR POWER PLANT, UNITS 3 AND 4
DOCKET NUMBERS 52-034 AND 52-035
COMBINED LICENSE APPLICATION UPDATE TRACKING REPORT

REFERENCE: Letter, R. Flores to D. B. Matthews, "Combined License Application Update Tracking Report, Rev. 0," TXNB-09005 dated April 2, 2009

Dear Sir:

Luminant Generation Company LLC (Luminant) hereby submits the Combined License Application (COLA) Update Tracking Report for Comanche Peak Nuclear Power Plant Units 3 and 4. The changed pages in the report reflect revisions to the Environmental Report (ER) to address topics discussed during the Environmental Review Site Audit conducted in late February 2009 and revisions to the Final Safety Analysis Report (FSAR) to address topics discussed during the Hazards Safety Site Visit conducted in early March 2009.

As stated in the referenced letter, the Update Tracking Report provides a method to collect revised pages from all parts of the COLA and periodically submit them to the NRC. The objective is to provide marked-up pages to the reviewers as soon as reasonable so they do not have to wait for the next COLA revision. However, starting with this issue, the Update Tracking Report will no longer be annotated with a revision number. Because the Report may include revised pages from various parts of the COLA, the revision number of each part of the COLA will be annotated individually. For example, the attached Update Tracking Report contains Rev. 2 to the ER, which is Part 3 of the COLA, and Rev. 1 to the FSAR, which is Part 2 of the COLA. When the COLA is revised, all of the revised pages that have been provided in the Update Tracking Report will be included in the COLA revision and will be annotated with the single COLA revision number.

Should you have any questions regarding these revised COLA pages or matters relating more generally to Luminant's nuclear generation development program, please contact Don Woodlan (254-897-6887, Donald.Woodlan@luminant.com) or me.
