

MISCELLANEOUS CORRESPONDENCE
FOR THE AUGUST 2008 LASALLE INITIAL EXAM

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

August 12, 2008

Mr. Charles G. Pardee
Chief Nuclear Officer and
Senior Vice President
Exelon Generation Company, LLC
4300 Winfield Road
Warrenville IL 60555

SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL

Dear Mr. Pardee:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the LaSalle County Station.

The U. S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications in connection with this examination and separately provided a list of approved applicants to Mr. Joseph L. White, Training Director, LaSalle County Station. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examinations in accordance with Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of August 25, 2008. The NRC staff will administer the operating tests during the week of August 18, 2008. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at 630-829-9707.

Please contact your Chief Examiner, Mr. Bruce Palagi, at 630-829-9611, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of the NRC's Agencywide Documents Access

and Management System (ADAMS). ADAMS is accessible from the Electronic Reading Room page of the NRC's public Web site at <http://www.nrc.gov/reading-rm/adams.html>.

REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

April 18, 2008

Mr. Charles G. Pardee
Chief Nuclear Officer and
Senior Vice President
Exelon Generation Company, LLC
4300 Winfield Road
Warrenville IL 60555

SUBJECT: LASALLE COUNTY STATION
CONFIRMATION OF INITIAL LICENSE EXAMINATION

Dear Mr. Pardee:

In a telephone conversation on April 7, 2008, between Mr. M. Entwistle, Examination Author, and Mr. B. Palagi, Chief Examiner, arrangements were made for the administration of licensing examinations at the LaSalle NPS during the weeks of August 18 and 25, 2008.

As agreed during the telephone conversation, your staff will prepare the examinations based on the guidelines in Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The NRC's regional office will discuss with your staff any changes that might be necessary before the examinations are administered.

To meet the above schedule, it will be necessary for your staff to furnish the examination outlines by May 5, 2008. The written examinations, operating tests, and supporting reference materials identified in Attachment 3 to ES-201 will be due by June 30, 2008. Pursuant to Title 10, Section 55.40(b)(3), of the Code of Federal Regulations (10 CFR 55.40(b)(3)), an authorized representative of the facility licensee shall approve the outlines, examinations, and tests before they are submitted to the NRC for review and approval. All materials shall be complete and ready to use. We request that any personal, proprietary, sensitive unclassified, or safeguards information in your response be contained in a separate enclosure and appropriately marked. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled.

In order to conduct the requested written examinations and operating tests, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402, and to make the simulation facility available on the dates noted above. In accordance with ES-302, your staff should retain the original simulator performance data (e.g., system pressures, temperatures, and levels) generated during the dynamic operating tests until the examination results are final.

Appendix E of NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the written examinations and operating tests are being administered.

To permit timely NRC review and evaluation, your staff should submit preliminary reactor operator and senior reactor operator license applications (Office of Management and Budget (OMB) approval number 3150-0090), medical certifications (OMB approval number 3150-0024), and waiver requests (if any) (OMB approval number 3150-0090) at least 30 days before the first examination date. If the applications are not received at least 30 days before the examination date, a postponement may be necessary. Signed applications certifying that all training has been completed should be submitted at least 14 days before the first examination date.

This letter contains information collections that are subject to the *Paperwork Reduction Act of 1995* (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on June 30, 2009. The public reporting burden for this collection is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or by Internet electronic mail at BJS1@nrc.gov; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, D.C. 20503-0001.

The NRC may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the Electronic Reading Room page of the NRC's public Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter. Mr. Entwistle has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Bruce Palagi at 630-829-9611, or me at 630-829-9707.

Sincerely,

A handwritten signature in dark ink, appearing to read "Hironori Peterson", is written over a horizontal line.

Subject: Response to NRC Regulatory Issue Summary 2007-17
"Preparation and Scheduling of Operator Licensing Examinations"

Reference: NRC Regulatory Issue Summary 2007-17, "Preparation and Scheduling of Operator
Licensing Examinations," dated July 12, 2007

The referenced Regulatory Issue Summary (RIS) requested that facility licensees provide a proposed schedule of operator licensing examinations and an estimate of the number of candidates to be tested in operator licensing examinations and the Generic Fundamentals Examinations (GFEs) for calendar years 2008 through 2011. Attachments 1 through 10 provide responses to RIS 2007-17 for the Exelon Generation Company, LLC (EGC) and AmerGen Energy Company, LLC (AmerGen) plants identified above. The requested information for each facility is provided on a separate NRC Form 536.

In calendar year 2009, 6 candidates are expected to take the dual site Limited Senior Reactor Operator (LSRO) initial license examination as indicated on Attachment 8. The schedule for the indicated examination is as follows: the written examination and part of the operating examination will be given at Limerick Generating Station (LGS); the remainder of the operating examination will be completed at Peach Bottom Atomic Power Station (PBAPS). Since the LSRO examination is a dual site examination that involves both LGS and PBAPS, rather than repeating the same information on both attachments, the examination scheduling information is provided on Attachment 8 for PBAPS. Attachment 6 for LGS references Attachment 8 where necessary.

The operator licensing examination information for each facility is provided on a separate NRC Form 536. There are no regulatory commitments contained within this letter. Should you have any questions about this letter, please contact Michelle Yun at (630) 657-2818.

Respectfully,

Darin M. Benyak
Director – Licensing and Regulatory Affairs
