David:

Sorry I didn't respond earlier. I was out of the office Friday and had left Thursday before I received your e-mail. The document you requested is currently only in the legacy files. I'm in the process of having it scanned into ADAMS.

Ron

Dear Ron,

I am unable to find the following document which is relied upon by COGEMA at Section 2.6 of its application - I searched under Docket No. & under License

No:

Permit to Mine No. 478, A-2 Update and U.S. NRC License Renewal Application:  
Source Material License SUA-1 341, January 5, 1996

### 2.6.1 REGIONAL GEOLOGY

The regional geology associated with the Irigaray and Christensen Ranch project areas was thoroughly discussed in "Permit to Mine No. 478, A-2 Update and U.S. NRC License Renewal Application: Source Material License SUA-1 341, January 5, 1996." The reader is referred to Section 2.6.1 of that document (pages 2-25 and 2-28 to 2-29 for a discussion of the regional geology.

\*\*

Kindly email it if possible. Thanks.
