Dear Mr. Erickson:

The Illinois Emergency Management Agency, Division of Nuclear Safety (the Agency), has completed our reply to the Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire for our May 11-15, 2009 review (attached). **Please be aware that one of the attachments contains security-related sensitive information for official use only and has been marked accordingly.** We provided you an electronic copy and are following it with this hard copy. We have arranged for a conference room to use for file reviews, interviews and team meetings. We have also arranged for a closeout meeting with our management at 9:00 a.m. on May 15, 2009.

The Agency strives to exceed the requirements of our agreement with NRC and to meet our commitment to the licensees and citizens of Illinois. We look forward to this opportunity to substantiate our efforts. The Agency appreciates the efforts you have put forth to visit us and evaluate our program.

If we may be of any further assistance or if you need details regarding lodging or restaurant recommendations, please feel free to contact me at (217) 785-9928. We will be happy to assist you with these items.

Sincerely,

Gibb Vinson, Head
Radioactive Materials Section
Illinois Emergency Management Agency
