Terrence Reis, Deputy Director
Division Materials Safety and State Agreements
Office of Federal and State Materials and
Environmental Management Programs
U.S. Nuclear Regulatory Commission
T8-E24
Washington, D.C. 20555-0001

Dear Mr. Reis:

Enclosed is a draft copy of revisions to the proposed Oregon Radiological Health Rules Chapter 333, Division 102. The proposed regulations are identified by line-in/line-out text (or similar identification) and correspond to the following equivalent amendments to NRC's regulations. Also enclosed is the compatibility guide to compare 10 CFR with cross reference to the Oregon Administrative Rules.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• 2007-2	Exemptions from Licensing and Distribution of Byproduct Material: Licensing and Reporting Requirements	Ch 333, Div 102

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200.

Please review this draft and provide documentation for any necessary changes.

If you have any questions, please feel free to contact me at (971) 673-0500 or email address @ Todd.s.carpenter@state.or.us

Sincerely,

Todd S. Carpenter
Licensing Manager
