Dear Sir or Madam:

1. Womack Army Medical Center (WAMC) requests to file an addition to amendmend dated 1 May 2009 for its byproduct material license.
2. We request to change limits of possession of C-14 and H-3 sources. License material review of receipts indicates that no C-14 and H-3 was ordered, used or stored in any amount of time in the quantities listed on the license. We would like to change possession limits for H-3 from 100 mCi to 90 mCi (paragraph 6E) and for C-14 from 90 mCi to 9 mCi (paragraph 6F).
3. If you have any questions concerning this action please contact the RSO for WAMC at (910) 907-8364 or by e-mail at ioulia.m.melomed@amcdd.army.mil

Sincerely,

BRIAN S. BURLINGAME
LTC, MC

Deputy Commander for Clinical Services
