Re: NRC License #47-01458-01

Dear Sir or Madam:

Our hospital is building a new facility about 15 miles away from the current facility. It is tentatively scheduled to open in September, 2010. When the new facility opens, the current facility will be closed and decommissioned. We will no longer use radioactive materials at this site.

As Radiation Safety Officer, I will be working to ensure that the new facility is properly licensed and that the old facility is safely vacated.

Several questions occur to me as I begin this process:

1. Will we require a new license, or will we transfer the current license to the new facility?
2. How soon should I begin submitting the requesting documents?
3. Is there one person at the NRC who would act as a point of contact for me on this process?

Feel free to call me at (304) 624-2574, or email me at [IsraelJ@uhcwv.org](mailto:IsraelJ@uhcwv.org).

Thank you.

Sincerely,

James W. Israel, M.S., DABR  
Radiation Safety Officer
