Dear Ms. Stein:

This refers to your license amendment request. Enclosed with this letter is the amended license.

Your current license lists the company name as Thermo EGS Gauging, Incorporated. However, your letter dated April 17, 2009 had a company letterhead name listed as ThermoFisher Scientific. If the company name has changed or change of ownership, please submit an amendment request as soon as possible. You will find guidance in Appendix F of NUREG-1556, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Service Provider Licenses" to be helpful in addressing the needed information.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800.
