Dear Ms. Rosetti:

The Bureau has received your documentation and close-out surveys on the disposition of your radioactive materials. Therefore, your New Jersey State License 70154/01 to possess and use naturally occurring or accelerator produced radioactive materials is terminated.

Although your license is terminated, it does not relieve you of the responsibility of consequences which might arise as the result of activities covered under the aforementioned license.

Your cooperation in complying with NJAC 7:28-1 et seq. is appreciated.

Sincerely,

William Csaszar, License Administrator
