Cascade Range Current Update

U.S. Geological Survey, Vancouver, Washington
University of Washington, Pacific Northwest Seismic Network, Seattle, Washington
U.S. Geological Survey, Northern California Seismic Network, Menlo Park, California

CASCADES VOLCANO OBSERVATORY WEEKLY UPDATE
Monday, May 11, 2009 13:19 PDT (Monday, May 11, 2009 20:19 UTC)

Cascade Range Volcanoes

Volcano Alert Level: **NORMAL**

Aviation Color Code: **GREEN**

Activity Update: All volcanoes in the Cascade Range are at normal levels of background seismicity. These include Mount Baker, Glacier Peak, Mount Rainier, Mount St. Helens, and Mount Adams in Washington State; Mount Hood, Mount Jefferson, Three Sisters, Newberry Volcano, and Crater Lake, in Oregon; and Medicine Lake volcano, Mount Shasta, and Lassen Peak in northern California. Mount St. Helens has been at Volcano Alert Level NORMAL (Aviation Color Code GREEN) since July 10, 2008.

Recent Observations: Seismicity remains at background levels at Cascades volcanoes. No maintenance or other field work was done during the past week.

The U.S. Geological Survey and University of Washington continue to monitor these volcanoes closely and will issue additional updates and changes in alert level as warranted.
