Miss Lizette Roldan, Ph.D  
Health Physicist  
Nuclear Regulatory Commission  
475 Allendale Road  
King of Prussia, PA 19406

RE: CONTROL NO. 143696

Dear Dr. Roldan

Making reference to your email dated 08May09 regarding above control number, here is your requested information regarding or new RSO:

1-a The consultant-RSO will have full control of our Radiation Safety Program, and will have a direct communication channel with management. He will ensure all personnel has full understanding of NRC regulations regarding our facility. He will have our support at all times. He will implement any necessary corrections to the program as necessary.

b. The consultant RSO will report directly to management on any matters regarding expenditure of funds to maintain an up to date radiation safety program, and request any necessary funding for the program. Our institutional management chain is as follows:

- a- Dr. Jose M. Soltero – President.
- b- Francisco A Orsini, Ph.D. – Department manager.
- c- Mr. David Rhoe – Consultant RSO.
- d- Nuclear Medicine technologist.

c. The RSO will visit the facility monthly, where he will review the program and records. Should corrective action is needed, he will dedicate all the necessary time for correction, and emphasize the radiation safety program.

d. For each location, there will be a nuclear medicine technologist appointed as the in-house representative, which will have direct communication with the RSO.

e. The RSO will be available 24 hours/7 days per week by telephone. He lives 20 minutes from the Santurce facility and 1 hours from the Guayama facility.

Should you need any other information, feel free to contact or call us at 787 236-9641, or you may call our consultant-RSO, Mr. David Rhoe at 787 245-7248.

Thank you for your help.

  
Francisco A. Orsini, Ph.D
