Jerry,

Attached is the findings from the review of the **DTE Energy Fermi3 COLA, Rev 1**. There was an issue raised by Julie regarding lack of space in the Subject line in the packing slip when she attempted to enter the submission title following the suggested format. I had informed her to follow the suggested format as closely as she could to provide some logical description of the document.

There are required and suggested corrections that the reviewer have indicated in the attached report.

If you have any questions, please contact Dimitry Mirkin or Muhammad Ismail.

I have the disks with me if you need to send this back.

Thanks
Grace
