Telephone No. 540 869 6111/ext. 106

Subject: Change of address and termination/issuance of new license

(NOTE: This will be used as the Documents Title in ADAMS)

This license had a storage location in Virginia, along with those in New Jersey and Indiana. For some unknown reason, this license did not get included in the licenses that were to be amended to delete the Virginia location when Virginia became Agreement State.

I called the licensee to explain that the Virginia location cannot remain on their NRC license as an authorized location of use/storage, and that they will need to obtain a license from Virginia if they want to continue storing licensed material at their Virginia location. I requested the licensee to send a letter to remove the Virginia location from the NRC license. ( I discussed the issue with Jim Kottan, and participated in a telephone conference with Mike Welling of Virginia to explain the situation. Mike agreed that they will issue a new license for their Virginia location.)

The licensee agreed to send the requested information. However, the letter also indicated a change in the mailing address. On May 7, I called the licensee to verify if they wanted the mailing address changed from Georgia to Virginia, and to explain that in this case, the license with mailing address in Georgia will have to be terminated, and a new license with mailing address in Virginia will be issued in its place.

The licensee confirmed the change in address, and understood the change in license.

Action Required: Specify the above address of storage locations on the license.
