Subject: enclosure for letter to Ms McMillan

Debbie,

The enclosure for the letter to Ms McMillan is part of a larger document that was added to ADAMS and made publicly available when it was submitted to the NRC in January 2009. Because we are sending only the executive summary to Ms McMillan, I requested that we add the executive summary to ADAMS as a separate document so that it could be included in the ADAMS package. Adding the executive summary now should not constitute a late addition to ADAMS because the executive summary was included in the original document that was added and made publicly available when the document was submitted.

Please let me know if you need any additional information.

Thank you.
