Washington, DC 20555

RE: Demand for Information and Reporting Damaged Devices
Containing Radioactive Material

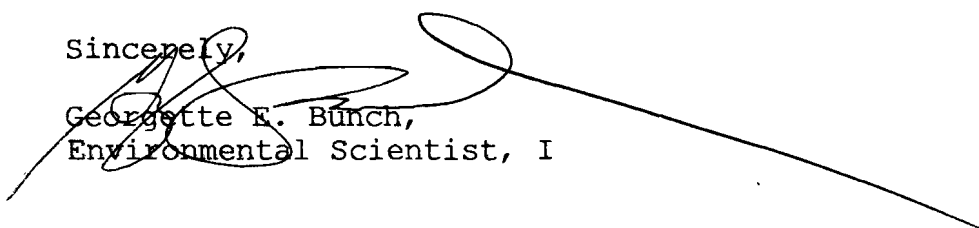

Dear Ms. McIntosh:

The New Jersey Department of Treasury, Division of Property Management and Construction (DPMC) has exhausted all efforts to obtain information on the nuclear exit signs located or formerly located at State-owned facilities in Trenton.

Our current records, based on information obtained from our Building Managers, indicate that we have 98 nuclear exit signs at our Trenton facilities. In 2005 we disposed of approximately 100 nuclear exit signs. Treasury assumes that the remaining signs have been removed during various renovation projects that have taken place over the years. For those, we have no information or paperwork.

Please inform DPMC how you would like us to proceed with regard to this matter. I may be contacted at (609) 633-2127.

Sincerely,

Georgette E. Bunch,
Environmental Scientist, I
