Name of Licensee: Monongalia General Hospital

Name of Participant(s): Mark Perna, RSO

Telephone No. (412) 551-9259

Subject: Request for Additional Information Regarding Addition of Dr. Stephany Swart as an Authorized User

(NOTE: This will be used as the Documents Title in ADAMS)

The licensee submitted an amendment request to add Dr. Stephany Swart as an authorized user for 35.100 and 35.200 materials and to remove 3 other physicians (one of whom is the only user authorized for 31.11 materials). The licensee had previously requested to add Dr. Swart, but did not submit the necessary supporting information and the request was voided. This amendment submitted the same supporting information as before for Dr. Swart. I told Mark Perna that we are running into the same issue and we needed the 700 hours of training and experience (including a minimum of 80 hours of classroom and laboratory training) documented on the NRC Form 313A (AUD). He told me to disregard the request to add Dr. Swart and they will resubmit it at a later time. I asked about the request to remove Dr. Dennis Burton since he is the only physician licensed for 31.11 materials. He said that to his knowledge, they haven't used any 31.11 materials and that it could be removed from the license. I requested a letter from management stating that either no materials under 31.11 were ever used or that the only materials used under 31.11 had a half-life less than 120 days. He said that they would submit that at a later time and for the time being, we should change the 31.11 authorization to Dr. Surendra Pawar.
