Paducah Gaseous Diffusion Plant

Vernon,

I am responding to the United States Enrichment Corporation (USEC) letter, dated April 15, 2009, signed by Steven Toelle, Director, Regulatory Affairs, in which USEC transmitted its Paducah Gaseous Diffusion Plant (PGDP) Revision 114 to Certificate Application, USEC-01, "Application for U.S. Nuclear Regulatory Commission Certification, Paducah Gaseous Diffusion Plant."

As part of the screening process, the NRC staff has completed the review of the information that USEC provided on April 15, 2009, and found the information acceptable for detailed review. During this review, we will notify you if any additional information, or clarification of existing information, is needed. The staff efforts associated with this review will be charged to Technical Assignment Control (TAC) number L32719. Please reference this TAC number in all correspondence related to this action.

Based on our preliminary review and projection of current review schedules, we anticipate completing our review of your request by late October 2009. This date could change depending on the findings of our technical/administrative review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule.

If you have any questions, please contact me at (301) 492-3217 or via e-mail at tilda.liu@nrc.gov.
