Subject: Acceptance of Review: Paducah GDP Certificate Amendment Request
Regarding Department of Energy Radiological Survey (TAC No. L32721)

(PLEASE NOTE THAT THIS E-MAIL WILL BE MADE PUBLICLY AVAILABLE IN ADAMS)

Vernon Shanks, Manager
Nuclear Regulatory Affairs
Paducah Gaseous Diffusion Plant

Vernon,

I am responding to the United States Enrichment Corporation (USEC) letter, dated April 17, 2009, signed by Steven Toelle, Director, Regulatory Affairs, in which USEC transmitted its certificate amendment request (CAR) regarding a Department of Energy (DOE) radiological survey. Specifically, the CAR requests a temporary change to Paducah Gaseous Diffusion Plant operations to allow a helicopter fly over of process support buildings, and hazardous material storage areas in support of a DOE radiological survey.

As part of the screening process, the NRC staff has completed the review of the information that USEC provided on April 17, 2009, and found the information acceptable for detailed review. During this review, we will notify you if any additional information, or clarification of existing information, is needed. The staff efforts associated with this review will be charged to Technical Assignment Control (TAC) number L32721. Please reference this TAC number in all correspondence related to this action.

Based on our preliminary review and projection of current review schedules, we anticipate completing our review of your request by late October 2009. This date could change depending on the findings of our technical/administrative review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule.

If you have any questions, please contact me at (301) 492-3217 or via e-mail at tilda.liu@nrc.gov.

Tilda Liu
Senior Project Manager
NMSS/FCSS/AFCB
