NAME OF PERSON(S) CONTACTED OR IN CONTACT	ORGANIZATION (OFFICE, DEPT.ETC.)	TELEPHONE NO.
John E. Shively, P.E., RSO	Shively Geotechnical Fairview Heights, IL	618-398-1414 FAX 618-398-1492

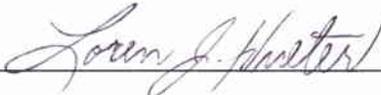

SUBJECT
 Control No. 317942 - Re request by letter dated February 13, 2009, notifying of a recent change of ownership/control and a change in mailing address for the license from the current location in Florissant, Missouri to, 11 French Village Industrial Park Drive, PO Box 1925, Fairview Heights, Illinois 62208.

SUMMARY
 In the telephone conversation with Mr. Shively, we discussed the need to provide full information regarding the ownership change as per the guidance in NUREG-1556, Vol. 15, Appendix F, "Information Needed for Transfer of Control" (copy attached). In addition to the response to the six questions in that document, please provide documentation that the transferor and transferee agree to the change in ownership or control of the licensed material and activity. The response to this request for additional information should be signed by a high level management representative (including both printed name and title) of both the transferor and the transferee.

We also discussed the requested change in mailing address from a facility they had in Florissant, Missouri to their facility in Fairview Heights, Illinois where they do, and have in the past, utilize a gauge program under their Illinois license but retained the NRC license for use in Missouri, rather than utilizing the reciprocity process. I noted that that based on our policy for issuing licenses with a state specific numbering system, based on the state in which the mailing address is located, we will need to replace their current NRC license (License No. 24-26620-01) with a new NRC license beginning with 12-, which relates to a licensee having a mailing address within the State of Illinois. After further discussion, Mr. Shively stated that they could just as well use their mailing address in St. Louis for the subject license and not require termination of the current NRC license and replace it with a new NRC License. He agreed to provide in their response, their new address in St. Louis for the mailing address for the subject license rather than their mailing address in Fairview Heights, IL.

ACTION REQUIRED
 Licensee is to provide the requested response to me **(as additional information to Control Number 317942) by facsimile at 630-515-1078. No follow-up hard copy needed. Please call me right after you have FAXED response.** Any questions may be directed to me at 630-829-9829.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
