

Braidwood Generating Station

**NRC 2008
End of Cycle
Meeting**

**Larry Coyle
Plant Manager**

Plant Performance 2008

- ✓ **Operated Safely and Reliably in 2008**
 - **Received Operations Training program accreditation**
 - **Completed successful NRC Graded Exercise of Emergency Preparedness program**
 - **Had a Capacity Factor of 95.4%**
 - **Safely completed Unit 2 refueling outage**
 - **Transitioned from contract security force to Exelon Nuclear Security**
 - **Started plans for dry cask storage facility**
 - **Reached more than 7 million safe work hours**

Tritium Remediation

- ✓ **Remediation efforts are working - concentrations reduced by 97%**
 - The tritium plume continues to decrease in size and concentration as remediation efforts continue
 - All plume levels are well below the federal standard of 20,000 picocuries per liter pCi/l
 - We are committed to keeping the public informed

Supporting the Community

- ✓ Exelon is a proud member of the community
- ✓ Contributions and donations in 2008:
 - Employees donated \$175,000 to the United Way
 - Fishing for a Cure raised over \$27,000 for FAAN (Food Allergy & Anaphylaxis Network)
 - Supported Braidwood Family Care (local food bank)
 - Sponsored Braidwood Shootout (high school basketball tournament) and Braidwood SummerFest Fireworks
 - Made contributions to fire departments for various projects, including: Custer Park, Gardner, Braidwood, Mazon
 - Made donation to help move the historic Braidwood Train Depot
- ✓ Braidwood is one of Will County's highest taxpayers (\$20.8 million paid in 2008, includes \$3.7 million in PILOT payments to various taxing bodies)
