2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

MAY 19 2009

Bradley McCormick, MA, CHCM
Radiation Safety Officer
Ferris State University
200 Ferris Drive
Big Rapids, MI 49307-2742

Dear Mr. McCormick:

Enclosed is Amendment No. 34 to your NRC Material License No. 21-15237-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please note that, in this amendment, I was unable to approve your request to add authorization for cobalt-57 and sodium-22 to the license because these materials are still subject to state regulation.

This is because the Waiver for your state, which must expire in order for NRC to assume jurisdiction over NARM materials, will not expire until August 7, 2009.

References to NARM materials have been excluded from your letter dated January 27, 2009, in Condition No. 26. Please also consult the NARM toolkit at :

<http://nrc-stp.ornl.gov/narmtoolbox.html>

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).

The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

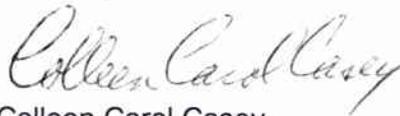

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you.

This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

B. McCormick

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".

Colleen Carol Casey
Materials Licensing Branch

License No. 21-15237-01
Docket No. 030-08783
