Enclosure 1 includes the information available to support the change packages of interest.

Furthermore, during our review of this letter it was discovered that two decreases in effectiveness reviews could not be located. We are currently searching for these and will transmit them to the NRC upon discovery. If they are not found in a timely manner we will write Condition Reports. The configuration changes that are missing reviews are listed below:

2007-0002, CC-EG-2006-0044, Change Elevation of UBC Storage Pad and change drain piping material – A decrease in Effectiveness Review on the Environmental Report could not be found.

2008-0207, CC-EG-2008-0117, Post Mortem Facility (PMF) Design Changes for DCP ETC4058177– A decrease in Effectiveness Review on the Environmental Report could not be found.
